

How to make an outdoor energy storage cabinet

How to create DIY outdoor storage?

A storage box is the most obvious solution for creating DIY outdoor storage and this free plan will show you just how to build one. While the inside is perfect for storage, the outside is elevated with trim, making it look like a nice piece of furniture that you might purchase. The top can be used as a bench to sit on or as a coffee table.

What is a good outdoor storage idea?

Here's a DIY outdoor storage idea for all the outdoor or garage toys that your children might have. It's really a two-tired bench that would look great outside or you could even use it inside to corral toys. The lips on the shelves make it a great place to store anything that might roll away, like toy trucks or balls.

How do patio storage cabinets work?

Wheels are attached to the bottom so you can easily move it wherever you like. These patio storage cabinets are the perfect solution to an outdoor kitchen but also can be used in any outdoor area. Standard base cabinets are used and the doors are given a fresh coat of paint before being ready to use.

How do you build an outdoor bench?

It's an easy build, using just one sheet of plywood for the basic box. Pine trim is used for the decorative inlay which really makes this project shine. This outdoor bench is not only a great place to sit and relax when you're outdoors, but it has a ton of hidden storage right under the seats.

How do you build a storage box?

Along with the slats for the frame and cladding, you'll also need a couple of sheets of MDF and a solid piece of timber for the top of the storage box. We had these cut to size at the DIY store where we bought them. Measure and mark where you have to cut, and then chop the timber into pieces with your mitre saw.

What kind of wood is used for outdoor storage?

Pine trim is used for the decorative inlay which really makes this project shine. This outdoor bench is not only a great place to sit and relax when you're outdoors, but it has a ton of hidden storage right under the seats. This DIY outdoor storage solution gives you a whopping five sections of storage that no one will even know is there.
