

Innovative solar systems complaints

Is solarinnovatorsystem a scam?

The Scam Detector website Validator gives solarinnovatorsystem.com a low trust score on the platform: 38.8. It signals that the business could be defined by the following tags: Questionable. Controversial. Flagged.. We are confident about our score as we also partner with other high-tech, fraud-prevention companies that found the same issues.

Are solar panels a scam?

With that demand comes fierce competition within the solar panel market. Scams, schemes and straight-up fraud abound in the dark underbelly of an otherwise light-filled industry. While there are still many honest and reliable solar panel companies on the market, it can be hard to differentiate the good guys from the rest.

What should you look out for when choosing a solar panel installation company?

Here are red flags to look out for when selecting a solar panel installation company. Door-to-door sales are innately pushy, and an aggressive salesperson is always a bad sign in business. Door-to-door salespeople are usually trying to make a quick buck and may rush along your decision-making process by making elaborate promises.

Is solar installation free?

It's an intentionally misleading claim. Usually, what the company means is that the installation itself is free, and sometimes that there will be no down payment on the solar equipment on the day of installation itself. But don't be surprised if you start getting bills for monthly down payments.

How do you know if a solar company is right for You?

This is generally a sign that the company is eager to pressure you into committing now, possibly without giving you time to review your contract. Steer clear of these solar companies, and take your time to decide what might work best for your household.

Do you need a down payment for solar installation?

Usually, what the company means is that the installation itself is free, and sometimes that there will be no down payment on the solar equipment on the day of installation itself. But don't be surprised if you start getting bills for monthly down payments. The world of solar power can be far shadier than you think.
