

Is sunpower a good solar company

Is SunPower solar a good company?

In general, SunPower receives more positive reviews than most national providers, and it even rivals some smaller regional and local companies. We read through hundreds of SunPower Solar reviews to gauge the overall customer sentiment, which we'll explain in the following sections.

Is SunPower a legit company?

Yes, SunPower is legitimate. SunPower offers a comprehensive line of solar products and services, including solar panels and inverters backed by one of the best warranties in the industry. Authorized dealers aren't available nationwide, and the level of customer support may vary from one installer to another.

Does SunPower offer direct solar panels?

SunPower no longer offers direct solar panel installations. In April 2024, SunPower ceased its home solar panel installation operations, so you cannot get solar panels installed directly by SunPower. However, the company is still managing its Dealer Network, meaning you can access SunPower financing plans and warranties through certified partners.

What services does SunPower offer?

SunPower offers home solar systems, solar batteries and electric vehicle (EV) charger installation services. Homeowners can also use the company's app to monitor system performance. Because the company is so widespread, its in-house installers aren't always available.

Does SunPower still make solar panels?

After 2020, SunPower no longer manufactured its own solar panels. Instead, the company and its manufacturing arm, Maxeon, had an exclusive agreement for Maxeon's M-Series panels. In March 2024, the M-Series exclusivity agreement ended as SunPower fell behind on payments.

Are SunPower solar panels efficient?

Over the years, it has produced some of the most efficient solar panels available. Though SunPower moved its panel manufacturing division into a separate company called Maxeon Solar Technologies in 2020, the panels remain optimized for SunPower systems. SunPower has also developed its own solar storage system and microinverter technology.
