KACO new energy hybrid inverter. KACO new energy supplies high-quality inverters for independent and decentralised energy supply. With the blueplanet hybrid 6.0 NH3 - 12.0 NH3, KACO is launching a new series in an unmistakable black design paired with numerous features and smart meters and current transformers already included in the scope of delivery.

For many years, the String Sizing Tool has been the faithful companion of PV planners when selecting the right inverter from the KACO new energy product range. You select the inverter and, based on a clear structure and a few targeted queries, you receive a design with the possible solar modules in the shortest possible time.

The best idea for the private energy transition is a solar PV plant: Inverters from KACO new energy supply the appliances in homes with clean energy from one's own rooftop power plant. This reduces the amount of

electricity that homeowners are charged by the energy provider. ... Solar+storage. Quick+easy. Hybrid inverters for residential and ...

Kaco hybrid solar inverter

The SH-RS inverters have a wide MPPT voltage operating range from 40V to 560V, while the more powerful 8 & 10KW units offer an impressive 4 MPPTs, enabling greater flexibility when designing solar arrays. The inverters are also equipped with advanced diagnostic tools, such as an IV curve scan, to identify faults or degradation issues in solar panels.

The hybrid fuel saving solution that KACO new energy is promoting includes a combination of blueplanet solar PV Inverters with proven third-party hybrid controllers (see appendix). These components are meant to make sure that as much solar energy as possible is used and that the genset is kept in its optimum working range.

The Kaco blueplanet hybrid inverter is the ideal link between photovoltaic systems and batteries so that you can make the best possible use of the solar power you generate. The device fulfills the function of a solar inverter, a battery inverter and a stand-alone inverter in one.
