Who is the largest lithium-ion battery company in the world?

With a revenue of over 90 billion U.S. dollars, the Japanese Hitachi Ltd was the largest lithium-ion battery company worldwide. Johnson Corporation, headquartered in Ireland, and Saft, based in France, were the only European companies that made it into the ranking. Get notified via email when this statistic is updated.

What are the top lithium-ion battery companies focusing on?

As per the analysis by IMARC Group, the top lithium-ion battery companies are focusing on developing and designing technologically advanced product variants. They are also making heavy investments in research and development (R&D) activities to introduce miniaturized lithium-ion batteries with improved efficiency.

Who makes lithium-ion batteries?

LG Chem in Poland and Contemporary Amperex Technology Co., Limited (CATL) in China also stood as global leaders that year for lithium-ion battery manufacturing, with matching production capacities of 24 gigawatt hours.

What is the global lithium-ion battery market?

The global lithium-ion battery market reached US\$51.0 Billion in 2023. The market is primarily driven by the rising product applications across numerous industries due to the enhanced energy density, lightweight, environment-friendly nature, long operating life, and high-power capacity of lithium-ion batteries.

What is the lithium-ion battery manufacturing industry?

The lithium-ion battery manufacturing industry is centered around creating, developing, and marketing highly efficient, safe, and environmentally friendly energy storage systems.

Who is the largest battery manufacturer in the world?

The Chinese company BYD ranked second with a market share of 15.8 percent, followed by South Korean LG Energy Solution with a market share of 13.6 percent. CATL (Contemporary Amperex Technology Co. Limited) was the largest battery manufacturer, having overtaken its main Chinese, South Korean, and Japanese competitors.
