Pennsylvania ... If you're curious about the pros and cons of buying vs leasing solar panels, you've come to the right place.

Under a solar lease, this third-party owner (e.g., a solar company) installs solar panels on your property and then sells you the electricity produced at a predetermined monthly rate. Companies calculate this rate based on the estimated annual production of your solar system and include this rate in your contract.

If you lease, the solar company owns and installs the solar energy system, and you sign a contract to use the system. You will have to pay a monthly leasing fee for the duration of the lease. You use the electricity generated by your system, but you also pay your utility for any electricity you use in excess of whatever your system provides.

Below are some the criteria we examined specifically for Maryland solar companies. Brand reputation and certifications (20%): We take each company's Better Business Bureau (BBB) ... Additionally, companies that offer more help for panel financing -- like in-house loans, leases, or PPAs -- score higher than those that don't.
