

Lebanon energy storage exhibition video

How long does power storage last in Lebanese?

Spending this amount will give a home enough power storage to last from eight to 10 hours after the sun goes down, and will last upwards of 10 years before needing an overhaul. But the initial investment is far beyond what the vast majority of Lebanese can afford.

Are Lebanese rushing to alternative energy?

With electricity becoming a scarce commodity, thousands of well-off Lebanese rush to alternative energy. Contractor Chawki Lahoud, left, updates Samer Maatouk on the solar power system he installed for him in front of photovoltaic solar panels in Broummana, Lebanon [Adam Muro/Al Jazeera]

Are Lebanese alternative energy contractors interested in solar power?

The half-dozen Lebanese alternative energy contractors interviewed for this article agreed, saying they have never seen this type of interest in solar power before. Catch up on our coverage of the region, all in one place. "I would say it's historically skyrocketing.
