Help your fellow builder by leaving your feedback based on these three criteria: Originality: How original is this - never seen before? Building Techniques: How much skill do you think the creator of this MOC has, in terms of building technique? Details: Express how much you like the details of the build. Your feedback is only shown to the creator as well as yourself.

An Orrery is a model solar system. Not sure if this is the right forum to ask you about an ongoing defect that has existed in Legos products since, well forever - color stability. Anyone who has owned a number of Lego sets for any length of time will know that your model will deteriorate significantly over time.

Waller, an environmental artist for video games, explained that the idea had come from another Lego Ideas submission he'd made in 2019 for The Dark Crystal film. In that instance, he'd built a small, non-working orrery of the fantasy solar system and pondered, "Wouldn't it be great if Lego made a real working orrery of our own solar system?"

An Orrery is a mechanical model of the solar system that replicates the planets movements around the Sun. Here JK Brickworks narrowed the focus to just the Sun, Earth, and Moon. It surprises me that LEGO haven't released an Orrery, seems like it would fit really well into their ethos of play and learn.

I was looking for an orrery to purchase because of the solar eclipse of 2024. Almost got the LEGO Technic 42179 Planet Earth and Moon in Orbit. I'm glad I did a bit more research and discovered the CADA C71004 The Solar System ...
