

Should you buy battery stocks in 2024?

The International Energy Agency predicts a tenfold increase in battery demand for electric vehicles over the next decade. Battery stocks haven't fared well for much of 2024, but a big rally has put them back in the spotlight. The Global X Lithium & Battery Tech ETF (ticker: LIT) gained more than 20% in September.

Which lithium stocks are a good investment?

The present marketplace presents an attractive opportunity for investors to pick up shares of the biggest lithium stocks like Tesla, Inc. (NASDAQ:TSLA), Albemarle Corporation (NYSE:ALB), and QuantumScape Corporation (NYSE:QS) at discounted prices. These firms are leading the lithium revolution.

What are lithium stocks?

Lithium stocks are commodity stocks that have principal interests in the mining, refining and distribution of lithium. The companies included under the umbrella of lithium stocks may be involved in the production of other metals and minerals, but lithium will be included in their portfolio.

Should you buy lithium stocks?

From there, you can purchase the lithium stocks you wish to own. Keep in mind, however, that every investor has their own individual needs based on their specific goals. If you have questions about which lithium stocks are right for your portfolio, it is always recommended to consult a financial advisor.

Should you invest in a lithium & battery tech ETF?

For example, it commands a more than 9% allocation in the Global X Lithium and Battery Tech ETF (LIT), which boasts \$1.5 billion in assets at present. Therefore, if investors pile into exchange-traded funds, or ETFs, as a way to play lithium, ALB stock will see an outsized benefit from these capital flows.

Are lithium stocks a risky investment?

Finance, as of May 30, 2024. Lithium stocks, like all commodity stocks, are closely linked to the supply and demand trends in the underlying materials they produce. All investing generally carries risk, and miners like this have specific risks based on their business model. That said, we've tried to highlight leaders in the sector based on:

Lithium may seem like an obscure chemical that has little to do with investing, but the truth is it's an essential element in the world of everyday technology. When you use your smartphone, work on your laptop or drive an electric vehicle, lithium is behind the scenes helping to power your devices. This will likely keep demand for lithium high for many years to ...
