

Maxeon solar

If you own a SunPower residential solar system in the United States, the system may include solar panels made by Maxeon, an independent company. Maxeon will provide warranty support for SunPower-branded solar panels ...

SunPower Maxeon solar panels are designed to be different, and proven to be better across more than five cell generations, 3.5 billion cells and 33 million panels, even in the harshest of conditions. Conventional solar cells lose power over time because of corrosion and breakage.

Maxeon Partners are solar installers whose level of expertise and professionalism match the quality and durability of the Maxeon brand. Discover more about the industry-leading network of Solar Panel Installers. Maxeon hand selects and trains the best local Solar Panel Installers.

This transaction will provide Complete Solaria with capital to optimize our end-to-end customer offering, including beautiful, high-quality solar energy systems with Maxeon premium, high performance solar panels.

The flagship Maxeon solar panel is designed to be different and proven to be better across more than five cell generations, 3.5 billion cells and 30 million panels, even in the harshest of conditions. Conventional solar cells lose power over time because of corrosion and breakage.

Maxeon Solar Technologies designs, manufactures and sells advanced SunPower and Maxeon branded solar panels to customers in more than 100 countries worldwide, through a global network of more than 1,700 sales and installation partners.

Maxeon Solar - Different and better than conventional solar. For almost 40 years, Maxeon has been the global leader in solar innovation, developing leading-edge technology to deliver the best solar energy products and the best customer experience.
