When you use links on our website, we may earn a fee. Clean energy is popular in Minnesota: As of 2024, the state ranks 16th for solar installations in the U.S., according to the Solar Energy Industries Association (SEIA), and it has the second-highest number of renewable energy programs in the country.

What are the best Solar Lease companies in Minnesota?

Plus, SunPower guarantees the energy output from the system you lease, which is an additional protection that other companies don't always provide. Sunrun is another big name you'll likely come across when researching solar leases in Minnesota.

Are solar loans a good idea in Minnesota?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Minnesota, rather than a leasing company retaining them.

Does Minnesota offer solar incentives?

Minnesota offers several solar incentives and rebates to make going solar more affordable. These incentives lower your solar panel system cost, eliminate state sales taxes, and offer ongoing credits for using renewable energy. We'll review the available Minnesota incentives below.

Is Sunrun a good solar company in Minnesota?

Sunrun is another big name you'll likely come across when researching solar leases in Minnesota. Sunrun doesn't have a great reputation among customers or solar industry pros, so we don't recommend doing business with this company.
