

Montevideo is a new energy storage hub

During the VIII Energy Week in Montevideo, hosted by the Organización Latinoamericana de Energía (OLADE), the Ministerio de Industria, Energía y Minería (MIEM), and IDB, Uruguay showed significant progress in the field of green hydrogen and derivatives. The event was a ...

In a typical year, 98% of Uruguay"s grid is powered by green energy. How did it get there? It involved a scientist, an innovative approach to infrastructure funding, and a whole ...
