A solar panel and 6-volt battery in one, this time and money saving solution eliminates unnecessary trips to your feeder just to change the batteries. Cheaper than buying a battery and solar charger separately, the Moultrie Feeder PowerPanel ensures your feeder has a continuous source of power, extending battery life in the field indefinitely.

There are two solar packs to choose from: 3.4 watts or 10 watts. Which one you need depends on what you're powering and what part of the country you're in. Before we get too far into it, you need to understand solar panel efficiency. The wattage gives you an indication of how much power a solar panel can transfer in perfect conditions.
