

Central Asia is conducting research and planning on the new energy vehicle industry, striving to promote the development of this emerging industry at a high starting point and level. Uzbekistan's 2022-2026 Development Strategy proposes the strategic goal of transitioning to a "green economy", with a focus on the production of electric new energy ...

NEV Parts & Accessories; Automobile Intelligence, Intelligent Connected Technologies and Products, Autopilot; New Energy Vehicle Technologies and Products, Components and Parts, Electronics and Systems; Vehicle Theft Security System (VTSS), Car Safety System, Vehicle Measuring, Detection, and Diagnosis Equipment, Simulation System, etc.

Exhibition Introduction. New energy vehicles are pivotal in addressing energy crises and environmental concerns, serving as a crucial direction for the transformation and upgrading of China's automobile industry. With the support of national policies and the growing market demand, the new energy vehicle industry in China has rapidly expanded ...

India Energy Storage Week (IESW) is a flagship international conference & exhibition organised by India Energy Storage Alliance (IESA), and it is held from 1st to 5th July 2024 in IICC Yashobhoomi, New Delhi.

Helping global automotive technology upgrades, Greater Bay Area International New Energy Vehicle Technology Expo will be show on Dec.04-Dec.06 in 2024. ... 2024 The 13th GBA International Energy Storage Lithium Battery and Power Battery Conference and Exhibition. :Dec.04-06, 2024.

The "ASEAN Solar PV & Energy Storage Expo" in Bangkok is a leading trade fair that specializes in the promotion and development of photovoltaic technologies and energy storage solutions in Southeast Asia. Held annually at the state-of-the-art IMPACT Arena, Exhibition & Convention Center in Nonthaburi, close to Bangkok, it serves as a platform for exchanging knowledge and ...

The 2024 China International New Energy Electric Vehicle and Charging Pile Exhibition (EV EXPO) will play a significant role in assisting enterprises to seize the historic ...

Evtech Expo, formerly known as Shanghai international energy saving and new energy vehicle industry expo, will be officially upgraded to Shanghai International New Energy Vehicle Technology Expo from 2020 in order to help the strategy of "made in China 2025" and realize the goal of "overtaking in the corner" of China's new energy vehicles. Expo is committed to ...

April 22-24, 2025. Expocentre Fairgrounds, Moscow, Russia | Renewable Energy and Electric Vehicles

New energy vehicle and energy storage exhibition

features an international exhibition and specialised forum. Call centre: +7 (499) 795-37-99. ... Green Energy and Electric Vehicles features an international exhibition and ... Hereby we inform you that RENWEX 2025 will take place on new dates ...

Power battery is the core of new energy vehicle technology, driven by the "double carbon" goal to vigorously develop power batteries as the main direction, the use of new materials or technology to improve the existing battery, the research and development of new batteries has become a major focus in the field of new energy vehicles, and with ...

The 14th Shanghai International Energy Storage Lithium Battery and Power Battery Conference and Exhibition 2025, scheduled to be held from August 13-15 at Shanghai New International ...

Europe's largest exhibition for batteries and energy storage systems. The organizers are Freiburg Wirtschaft Touristik und Messe GmbH & Co. KG and Solar Promotion GmbH: Solar Promotion GmbH. P.O. Box 100 170. 75101 Pforzheim. Germany. Phone: +49 7231 58598-0. Fax: +49 7231 58598-28. E-mail: info@thesmartere

The company is the world's first carmaker to stop the production of fossil-fueled vehicles on the EV shift and has remained top of new energy passenger vehicle sales in China for 10 years in a row.

2025 Shanghai International Charging Pile and Battery Swapping Station and Photovoltaics Energy Storage Technology Exhibition will be held in Shanghai New International Expo Centre on August 13-15, 2025. ... (2025 Shanghai International New Energy Vehicle Technology and Supply Chain Exhibition), it provides a "high-level, high-taste and high ...

In 2024 August 8-10, Solar PV & Energy Storage World Expo 2024 is expected to reach an exhibition scale of 150,000 square meters, bringing together 2,000+ exhibitors and 200,000+ professional visitors, deeply linking upstream, midstream, and downstream industry chain resources, building a one-stop business procurement platform. We believe it will ...

About. 2024 China International New Energy Vehicles and Charging Solutions Expo. New energy vehicles are pivotal in addressing energy crises and environmental concerns, serving as a ...

ASEAN Sustainable Energy Week 2025 (ASEW) is a leading exhibition and conference focused on sustainable energy solutions and technologies in Asia. The event typically features a wide range of exhibitors from the energy sector, including renewable energy companies, energy storage and efficiency solutions providers, and related industries.

In 2009, the Shenzhen New Energy Industry Revitalization and Development Plan (2009-2015) was formulated, focusing on supporting the development of industries such as solar energy, nuclear energy, wind

energy, biomass energy, energy storage power stations, and ...

Upcoming Events; RE+ Events; RE+ 2025 Las Vegas. RE+ is the largest energy event in North America and RE+ 2025 Las Vegas will be the premier business-to-business event and the best place to connect with professionals from the solar energy, energy storage, smart energy, microgrids, wind energy, hydrogen and fuel cells, electric vehicle infrastructure and wind ...

The Electric & Hybrid Vehicle Technology Expo brings together engineers, ... Access to 5 tracks of technical education spanning new methods of advanced battery design and latest technologies, battery manufacturing development, and newly added forecasts of the market supply chain and regulatory outlook. ... Energy Storage South April 16-17, 2025 ...

Due to the limitations of technology, concepts and exhibition venues, the thinking mode of new energy vehicle exhibition space design in the past has become more and more narrow, and the development and continuity of its space has become more and more limited. ... J Energy Storage, 35 (2) (2021), Article 102275. View PDF View article View in ...

With four parallel energy exhibitions, The smarter E South America is LATAM's largest platform for the new energy and mobility world and will take place from August 26-28, 2025 in S#227;o Paulo. It takes a comprehensive approach to the topics of the new energy world by presenting cross-sector energy solutions and technologies.

Thailand New Energy Electric Vehicle Technology Exhibition in 2022. The 6th EV Aisa 2022. Exhibition time: September 14-16, 2022 Venue: ThailandoBangkokoBITEC International Convention and Exhibition Center Holding cycle: once a year o 6th Organizer: UBM, Electric Vehicle Association of Thailand (EVAT) Organizer: Oriental Forte (Beijing) ...

9 years history with 70% of international experts. Since its establishment in 2014, EVTec (China International Electric Vehicle Conference) has been committed to creating a professional platform for in-depth industry exchanges, exploring the latest technological development trends and market dynamics of the new energy vehicle industry, and showcasing the latest research results.
