If you have additional questions, call 866-NJSMART or visit NJCleanEnergy . New Jersey's Renewable Energy Incentive Program is brought to you by the New Jersey Board of Public Utilities and New Jersey's Clean Energy Program. Thousands of New Jersey homeowners, businesses, and municipalities are incorporating

New Jersey's Clean Energy Program (NJCEP) promotes increased energy efficiency and the use of clean, renewable sources of energy including solar, wind, geothermal, and sustainable biomass. The results for New Jersey are a stronger economy, less pollution, lower costs, and reduced demand for electricity.

Board Orders. Pursuant to the Clean Energy Act of 2018 (L. 2018, c.17) and the Solar Act of 2021 (L. 2021, c. 169), the New Jersey Board of Public Utilities (NJBPU) established a new permanent Community Solar Energy Program (CSEP) by Board Order dated August 16, 2023. The CSEP replaces the Community Solar Pilot Program which was closed to new registrations on ...

On December 7, 2022, the New Jersey Board of Public Utilities (Board) approved a notice of proposal to amend its existing solar energy rules to include the Competitive Solar Incentive (CSI) Program, to be codified at N.J.A.C. 14:8-11.10 as part of the larger Successor Solar Incentive (SuSI) Program, set forth at N.J.A.C. 14:8-11. The SuSI Program serves as the permanent ...

New Jersey's Offshore Wind Program. New Jersey Governor Phil Murphy signed Executive Order No. 8 ... On February 15, 2023, Governor Murphy signed Executive Order No. 315 ("EO 315"), changing New Jersey's renewable energy goal from 50 percent renewable energy by 2030 and 100 percent clean energy by 2050 to 100 percent clean energy by 2035.

New Jersey's Clean Energy Program uses the SREC Tracking System GATS (Generation Attribute Tracking System), developed and supported by PJM Environmental Information Services (PJM-EIS). Call 866-NJSMART (866-657-6278) for more information on NJCEP or 877-750-GATS (4287) for information on the PJM-EIS SREC Tracking System.

New Jersey Energy Master Plan Goals The overarching goal of this study is to create New Jersey's 2024 Energy Master Plan (EMP), which outlines the state's strategic use, management, and development of energy. The 2024 EMP will reflect the State's accelerated goal of reaching 100% clean electricity by 2035.

Trenton--December 19, 2023. --The New Jersey Board of Public Utilities (NJBPU) today opened the application windows for the third year of the Community Energy Plan Grant (CEPG) Program and the first year of the new Community Energy Plan Implementation (CEPI) Program.. The CEPG and CEPI programs empower local communities to create and implement community ...

In July 2021, Governor Murphy signed the Dual-Use Solar Energy Act of 2021 (L. 2021, c. 170, Dual-Use Act) which directs the New Jersey Board of Public Utilities (NJBPU or Board) to adopt rules establishing a Dual-Use Pilot Program (Pilot Program) for the development of dual-use solar projects on productive farmland (also known as "agrivoltaics").

New Jersey's Clean Energy Program (NJCEP), administered through the DCE, promotes energy efficiency programs and the development of clean, renewable sources of energy including solar, wind, geothermal, combined heat and power (CHP) and sustainable biomass. The goal of the DCE is to lower energy costs, reduce demand for electricity, emit fewer ...
