

Nomad power system hoax

The alleged suppression (or weakening) is claimed to have occurred since the mid-19th century and allegedly perpetrated by various government agencies, corporate powers, special interest groups, and fraudulent inventors. The special interest groups are usually claimed to be associated with the fossil fuel or nuclear industry, whose business model would be threatened. Claims of suppression include:

The Nomad Power C2 CARBON has an extreme long design life (10 years) with zero maintenance required. Created for long life high cycle application such as solar and wind powered renewable energy storage. The Nomad Power C2 CARBON is suitable for solar and wind powered homes, TV/Radio stations and solar powered equipment.
