What is Onyx Solar Energy?

Onyx Solar Energy |13,578 followers on LinkedIn. Onyx Solar is the global leader in solar photovoltaic (PV) glass for buildings. This game-changing material not only generates electricity from the sun but also provides thermal and acoustic insulation, natural lighting, and UV/IR filters in innovative, state-of-the-art designs.

Is Onyx Solar a good company?

It has been awarded as the Most Innovative Glass Product by the National Glass Association of the US. With over 400 projects spanning the 5 continents and more than 100 international awards, Onyx Solar has earned recognition as the Global Leader Manufacturer of Photovoltaic Glass for Buildings.

Where is Onyx Solar PV glass used?

Onyx Solar PV glass has been used in building projects on five continents, including in the construction of the Miami Heat Stadium, the Dubai Frame, the Science Pyramid in Colorado and an award-winning residential building known as The General in Northcote, Australia.

Does Onyx Solar have a LEED Gold certification?

In March 2016, Onyx Solar signaled the completion of the installation of photovoltaic glass at the entrance of the American Airlines Arena by announcing that its project had received the LEED Gold certification, which is the highest certificate for building sustainability.

ALCAL#193; 33 PHOTOVOLTAIC skylight . Onyx Solar has manufactured Photovoltaic Glass for the main Photovoltaic Skylight for the rehabilitation and reform of this historic building built in 1900 at 33 Alcal#225; Street, Madrid.. The installation is composed of 12 units of Amorphous Silicon Photovoltaic Glass with high transparency degree to maximize the entry of natural light.

* Onyx Solar Energy S.L. makes no representations, warranties or guarantees, whether express or implied, that the content in the report is accurate, complete or up to date. It is installed at the headquarters of the company PT Surya Energi Indotama to create a photovoltaic curtain wall located in the main facade of the building.

Onyx Solar has completed the first project in the Principality of Monaco. It is a 48 m² Photovoltaic Skylight made of Crystalline Silicon photovoltaic glass. ... * Onyx Solar Energy S.L. makes no representations, warranties or guarantees, whether express or implied, that the content in the report is accurate, complete or up to date. ...

Onyx Solar, a firm with wide experience in the building integration photovoltaic solutions (BIPV), offers a full range of architectural and engineering consulting in design, manufacturing, and installation of photovoltaic constructive solutions.
