To address these challenges, Panama's National Energy Plan 2015-2050 has started moving the energy sector decisively towards a more diverse energy mix that takes full advantage of the country's significant renewable energy resource potential. At the core of the plan is a massive scale-up of solar photovoltaic and wind energy.

The Brazilian Ambassador was also present, as Brazil seeks to establish its main logistics center in Panama. Another bonus: This project was made through foreign investments, which Panama works hard to attract. The building of the storage facility created new jobs and drew attention from the media. The entire event turned out to be an excellent ...
