

Solar Choice is an option for customers to benefit from renewable energy without the requirement of having rooftop solar panels. When you enroll, PG& E will purchase additional, new solar resources to meet your electricity needs as well as those of other participating customers.

PG& E offers a variety of helpful information to prepare customers for Solar service. Follow the links below before contacting our Solar Customer Service Center to learn all you need to know about solar billing and other FAQs.

Work with PG& E to ensure that your system is interconnected safely to the grid; Provide warranty information; Create a repair and maintenance schedule; Submit an application for the appropriate PG& E incentive program

If generating your own power isn't a good fit for you, consider PGE's renewable power options: Green Future Choice or Green Future Block or Oregon's Community Solar program which brings small, and often more affordable, solar projects to communities throughout Oregon.

6 days ago; Starting on April 15, 2023, new rooftop solar applications will be approved under the Solar Billing Plan (also known as Net Billing Tariff). Under the plan, the way solar works for your property depends on how much electricity you generate and how much electricity you use.
