

Philips sonicare power flosser 7000 system review

How much does a Philips Sonicare power flosser cost?

Priced at \$269, the Philips Sonicare Power Flosser 7000 offers features like gum massage and additional tips on top of the Quad Stream technology used to shoot water between your teeth clearing any debris.

Is the Philips Sonicare power flosser 7000 a good water flosser?

The Philips Sonicare Power Flosser 7000 is an excellent water flosser. If you are not flossing at all, I urge you to consider it as a worthy investment before spending thousands of dollars at the dentist one day.

Which Sonicare flosser is the most cost effective?

Yes, the cordless power flosser 3000 is the most cost effective. The retail prices of the Sonicare flossers are as follows: You will note that there is just \$10 difference between the 3000 and 5000 and that is because there is barely any technical differences between them. A \$40 premium over the 5000, the 7000 does offer a few extra features.

Does Sonicare power flosser really work?

Luckily the targeted water pressure from the Sonicare Power Flosser has made deep cleaning around my crowns a breeze. That peace of mind has been a game changer for my dental routine. What I also like about the Philips Sonicare Power Flosser is that the water tank is super easy to fill and clean.

Is Sonicare a good water flosser?

The cleaning results are good, the water tanks are appropriately sized and the overall usability is great. The lack of a rotating nozzle and the cost are disappointing. The Power Flosser competes with the best, which is impressive considering it's Sonicare's first attempt at a water flosser.

Does the Philips Sonicare power floater have a cylindrical tank?

Thankfully, that's not even on my radar with the Philips Sonicare Power Flosser, as the large, cylindrical tank sits atop the machine and is fully removable, as is its lid. That being said, if you have little room on your bathroom vanity, the cylindrical tank may be a hinderance.

Compared to the Waterpik Aquarius Professional, the Philips Sonicare Power Flosser 3000 stands out due to how quiet it is. Both will do an equally good job of cleaning your mouth, but the Power Flosser 3000 is significantly less loud the entire time it's working. On the lower settings, you'd be hard-pressed to even know it's going.

review; Sonicare Countertop Power Flosser 3000/5000/70000 review; Please note.

Like most water flossers, the Power Flosser 3000 is straightforward to use, though the physical act of water flossing has a bit of a learning curve. The main body of the unit has a power button, a dial to control the intensity to 10 different levels and a button for deep-clean mode (which changes the pulsing pattern of the water).
