

Photovoltaic coating t-60 armor

Can photovoltaic coating be added to cc-00 power armor?

With the addition of Creation Club content, it can also be added to the CC-00 power armor. Unlike the standard version, the CC-00 version can be applied to any armor piece. Photovoltaic coating can only be crafted with a power armor station. This article is too short to provide more than rudimentary information about the subject.

How many models are there in T-45 power armor?

Like every other set of Power Armor above it, T-45 has six different models. F is the strongest model and provides 110 damage resistance and 950 energy resistance (Radiation resistance never scales without mods). The Minutemen paint job is exclusive to T-45 Power Armor sets.

Can you paint a T-45 & T-51 X-01 helmet?

It lets you choose both materials and paints for each piece of the T-45, T-51, T-60 and X-01 Power Armor. Since v0.3b, also creates a new category for the photovoltaic mod exclusive for helmets, which allows to apply a material, a paint AND the photovoltaic mod for the T-45, T-51, T-60 and X-01 Helmet. IT DOES NOT TOUCH PAINTS IN ANY WAY!

Is the t-45-mp-47 a good type of armor?

While the T-45 Power Armor ranges are widely considered barely adequate in modern terms, there is one set of armor from this generation that is widely considered to be the pinnacle of perfection for its sub-type, and that is the T-45-MP-47 variant - otherwise known as Combat Medic Power Armor.
