

Captives of Conquest is one of the first books to examine the earliest indigenous slave trade in the Spanish Caribbean. Erin Woodruff Stone shows that the indigenous population of the region did not simply collapse from disease or warfare. Rather, upwards of 250,000 people were removed through slavery, a lucrative business sustained over centuries that formed the ...

"The new edition of the text represents an outstanding improvement over earlier versions. I would highly recommend it to any faculty interested in teaching a course related to photovoltaic systems engineering for the following reasons: a) It represents an excellent balance of theory and practical engineering application of science, technology, and economic analysis; b) It is up-to-date on ...

Messenger 2003 - photovoltaic systems engineering ... The concentrated solar power system uses lens or mirrors and tracking systems to focus a large area of sunlight into a small beam. The process of conversion of light into electric current by the photovoltaics is known as the photovoltaic effect. Solar photovoltaic arrays are subjected to ...
