

Independent energy storage company Global Energy Storage (GES) has announced it is buying an interest in part of assets of the Stargate Terminal at the Port of Rotterdam from Gunvor Group and will develop more than 20 hectares at the heart of the port.. The site includes a significant waterfront with deep water access alongside brownfield ...

Our fleet of battery energy storage systems (BESS) for rent are designed to store and provide power when you need it most on the jobsite. When you require an industrial energy solution for your construction site, plant or event, these energy storage systems provide silent, efficient temporary power at several different outputs.

Vucins said, "The port is ideally placed for this development, which will bring low-carbon technology to one of the world's great trading hubs that has taken a leading position in the energy transition with very significant and ambitious developments of its own." Gunvor will be a long-term partner of GES at the Port of Rotterdam.

Spain is targeting 20GW of energy storage by 2030. This BESS was deployed by Ingeteam at a green hydrogen facility in Ciudad Real. Image: Ingeteam. The government of Spain is launching EUR160 million (US\$170 million) in grants for energy storage projects, aiming to fund 600MW of projects to go online in 2026.

The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.
