Potter fire system non addressable mac power supply

PSN Series Power Supply. Learn about QuadraSync, Reference EOL, and more to save you time and money on your next fire alarm project. PFC-6000 Learn Function. ... How to program releasing systems with Potter addressable fire panels. PVX-Series Overview. A brief overview of Potter voice panels.

with addressable fire systems that utilize the PAD Addressable Protocol. All terminals are power limited and should be wired in accordance with the requirements of NFPA 70 (NEC) and NFPA 72 (National Fire Alarm Code). Failure to follow the wiring diagrams in the following pages will cause the system to not operate as intended. For

The PSN conventional power supply offers reliable notification power with unprecedented versatility. 10 amps of continuous power ... Two Trouble relays (5A at 30VDC) General System Trouble (programmable for AC delay) Low AC Trouble with optional delay settings ... the power supply has an input Pass Thru mode which allows the outputs to follow ...

System Operates as Class A or Class B for SLC, P-Link and NACs; 10 Amp Power Supply, Expandable to 315 amps; The AFC-1000 is an expandable analog/addressable releasing fire alarm system with a total system capacity of 1270 addresses. Additional capacity on the system is achieved using multi-point SLC modules.

The JFS-A2 (Potter model P400R) is an expandable analog/addressable releasing fire alarm system with a total system capacity of 2,032 points. The control panel utilizes the exclusive Potter/Nohmi ... The JFS-A2 has a 10 Amp power supply with six Notification Appliance Circuits (NACs) and four In-put/Output (I/O) circuits. ... o Strobe sync ...

The AFC-50 is an analog/addressable releasing fire alarm system with a total system capacity of 50 addresses. Additional capacity on the system is achieved using multi-point SLC modules. The control panel utilizes the exclusive Potter protocol that includes a ...

The AFC-1000 is an expandable analog/addressable releasing fire alarm system with a total system capacity of 1270 addresses. Additional capacity on the system is achieved using multi-point SLC modules The control panel utilizes the exclusive Potter protocol that includes a complete line of sensors and modules. ... The AFC-1000 has a 10 Amp ...

POTTER Fire Alarm Systems; POTTER Integrated Voice Systems; POTTER Fire Releasing Systems; ... POTTER IPA-100 is an analog/addressable releasing fire alarm system with a total system capacity of 127 points. The control panel utilizes the exclusive POTTER protocol that includes a complete line of sensors and modules. ... 5 Amp Power Supply ...
