

AMAZING SOLAR SYSTEM! - posted in Vendor and Group Announcements: Quantum Planets are preparing an amazing project that will be launched soon, it is a Solar System where the planets orbit around then sun. The planets are exact miniature recreations in an algorithmic ratio. The models are pulled directly from NASA and hand-painted in all manner ...

Exploring quantum physics" role in enhancing solar cell efficiency, focusing on Perovskite Quantum Dots and inter-subband transitions. ... Dust accumulation on solar panels can also reduce the output of the solar system. To address these challenges, a feasibility analysis before installation, along with proper maintenance after installation, is ...

Retro-future solar system gaming for Quantum Starfarer. Quantum Starfarer. Lightweight sci-fi RPG. Piracy and Privateering. System-agnostic space pirate sourcebook! ... Kickstarter for a second edition coming soon! Gargoyle 74. Old-school d20 ...

As new-generation solar cells, quantum dot-sensitized solar cells (QDSCs) have the outstanding advantages of low cost and high theoretical efficiency; thus, such cells receive extensive research attention. Their power conversion efficiency (PCE) has increased from 5% to over 15% in the past decade. However, compared with the theoretical efficiency (44%), the ...

Imagine having a replica of the entire solar system in your home or workplace. With Quantum Solar System (QSS) you can now experience the beauty and wonder of the solar system in your own home. Our platform features miniature replica planets that float and orbit around the Sun, all thanks to our innovative magnetic levitation technology.

To learn more about the Quantum planets and solar system project scrutinize the promotional video below. For a complete list of all available pledges, stretch goals, extra media and product specifications for the planets and solar system, jump over to the official Quantum crowd funding campaign page by going to the link below.
