

Razor ecosmart metro electric scooter lithium battery

I have an Ecosmart Metro that I want to add an extra battery to for the purpose of more speed. This will make the scooter 48 volts, however I have kids that ride my scooter from time to time and I am worried it will be too fast for them to safely ride. I want to use a switch so that I can use 36 volts for them and then switch it to 48 volts for me.
