? Solar System Simulator is an immersive online game that allows you to explore and interact with our very own solar system. It offers a realistic and detailed simulation of the Sun, planets, moons, and other celestial objects, giving you the opportunity to learn about the dynamics and characteristics of our cosmic neighborhood. Read more ...

If you build your solar system on a roll of toilet paper, you can make the Sun about .4 inches (10 mm) across and still fit the entire solar system on the roll. A standard roll of toilet paper has about 450 sheets that are about 4.375 inches long, hence the roll is about 164 feet long. You should check your toilet paper for length. Some are longer.
