Ring spotlight cam pro does not recognizing solar panel

Why does my ring camera not recognize my solar panel?

If your Ring camera doesn't recognize your Ring solar panel,it's likely the result of improper installation and set-up. One very common cause of this issue is when users choose the wrong device during the installation process. During installation,your Ring app will ask you to add a new device.

How do I connect my spotlight cam to my ring?

To connect your Ring Spotlight Cam to your network,put the cam into Setup Mode by pressing and releasing the button on the top (place the cam in Setup Mode by pressing and releasing the button on the top). When you see a blinking white light on the bottom of your cam,tap 'Continue' in the app on your iPhone. Android phones should automatically connect to the Ring WiFi network.

Why is my ring camera not working?

One of the most likely reasons is that your Ring camera doesn't have batteries. This would happen both if the camera doesn't come with any batteries or if the camera's batteries haven't been placed in the device. Your Ring solar panels usually don't have batteries of their own.

How do I set up a spotlight Cam?

Complete the set up process. After you choose a wireless network to connect to, the spotlight cam will update it's firmware (takes about 5-15 minutes depending on your network speed) and when you go into settings>device health, it will show the solar panel connected and able to charge device.

Why is my ring camera not charging?

A few things can prevent your Ring solar panel from charging your Ring camera. One of the most likely reasons is that your Ring camera doesn't have batteries. This would happen both if the camera doesn't come with any batteries or if the camera's batteries haven't been placed in the device.

How do I know if my solar panel is connected?

Typically, when you connect a solar panel to your Ring device and the solar panel is successfully installed, the Ring app should reflect that. Under Device Health in your Ring app, the camera's solar status should say Connected.
