

Shopee energy storage building

Where is Shopee HQ now?

Shopee has moved its office yet again. The new regional HQ is now at Kent Ridge, in this 6-storey building called...the Shopee Building. The new Shopee office spans 244,000 sq ft over 6 floors. There's an internal staircase that connects all 6 floors.

What is Shopee Office Singapore?

About Shopee Office Singapore. When Shopee began designing its new... | by Shopee Design | Shopee Design | Medium When Shopee began designing its new 3,500 sqm office at the Ascent building at 2 Science Park Drive, it took three concepts to heart: Connectivity, collaboration and community.

Why did Shopee design its new office at 2 Science Park Drive?

When Shopee began designing its new 3,500 sqm office at the Ascent building at 2 Science Park Drive, it took three concepts to heart: Connectivity, collaboration and community. These ideas resonated not only with the Singapore-based online marketplace's business mission, but also its more than 200, predominantly millennial, staff.

How big is Shopee's new HQ?

Just last week, Shopee unveiled the best office ever -- its new six-storey HQ with a capacity that can house up to 3,000 employees! Our spangly new space spans 244,000 sq ft and is specially designed with the concept of promoting connectivity, collaboration, and community in mind.

What's new at Shopee?

The new Shopee office spans 244,000 sq ft over 6 floors. There's an internal staircase that connects all 6 floors. Other than offering a quicker access (if you don't want to wait for the lift), Shopee says this enhances inter-department collaboration opportunities.

How many employees does Shopee have?

In four years, Shopee has grown from just 10 employees to more than 1,500 and the new office can accommodate up to 3,000 employees. A report last month by product comparison website iPrice showed Shopee extending its lead over rival Lazada as the most visited Internet shopping platform in the region.

Shopee energy storage building

Smart zero-energy buildings and communities have a major role to play in the evolution of the electric grid towards alignment with carbon neutrality policies. The goal to reduce greenhouse gas emissions in the built environment can be pursued through a holistic approach, including the drastic reduction of buildings' energy consumption. The state-of-the-art in this field relates, on ...

The new building has an office space of 244,000 square feet across six floors and is expected to house up to 3,000 employees. Shopee, a unit of New York-listed Sea, currently employs more than 1,000 staff. In addition to workspaces and a cafeteria, the building houses a 3,000 square feet gymnasium, a mini arcade and a dinner catering service.

A continuous and reliable power supply with high renewable energy penetration is hardly possible without EES. By employing an EES, the surplus energy can be stored when power generation exceeds demand and then be released to cover the periods when net load exists, providing a robust backup to intermittent renewable energy [].The growing academic ...

Energy storage, such as battery storage or thermal energy storage, allows organizations to store renewable energy generated on-site for later use or shift building energy loads to smooth energy demand. With a large battery, for example, excess electricity generated by rooftop solar can be stored for later use. By coupling on-site renewables ...
