

# Shreveport solar companies

How do I choose a Shreveport solar company?

Look for Shreveport solar companies that have at least 3.5 out of 5 stars based on customer feedback on Google Reviews and similar sites. Make sure the company has a high rating on Better Business Bureau (BBB) when selecting a solar company.

Who is the best solar company in Shreveport?

The highest-rated local solar company in Shreveport is Solar Alternatives, Inc., with a rating of 3.00 stars. What are some of the main advantages and disadvantages of going solar? A few of the biggest pros are that it lowers your power bills, it's good for the environment, and it can give you a significant return on your investment (ROI).

Is solar power a good investment in Shreveport?

Our rankings are never affected by revenue or partnerships. Getting the best solar panel installation company for your home is a huge decision, but it's one that can pay off big in Shreveport. While solar power is a large investment, you'll be able to make the cost back and then some, all while helping to protect the planet.

How much does solar cost in Shreveport?

The average price of solar is about \$1.9 to \$2.86 per watt in Shreveport, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

Why should you switch to solar power in Shreveport?

Shreveport and the surrounding area receive plenty of sunlight, which enables homeowners to benefit from solar energy. Here are the biggest reasons for switching to solar power: Reduce environmental impact: Adopting solar reduces your carbon footprint by saving fossil fuels otherwise used to power your home.

How do solar incentives work in Shreveport?

Solar incentives and rebates can cut the cost of installing solar in Shreveport by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.
