

Shreveport solar panel company

Are solar panels a good investment in Shreveport?

You can go with a local Shreveport solar company or use an established national brand. Even though solar panels are a significant upfront investment, you can reduce your energy bills over the long run. The U.S. Energy Information Administration (EIA) shows that moving to solar energy enables Shreveport homeowners to save around \$1,800 per year.

How do I choose a solar installer in Shreveport?

High-quality solar panel installation in Shreveport, Louisiana requires you to hire a solar installer with proper certification, skills and experience. We've assembled a list of the highest-rated solar companies in Shreveport to help you choose the perfect installer.

Who is the best solar company in Shreveport?

The highest-rated local solar company in Shreveport is Solar Alternatives, Inc., with a rating of 3.00 stars. What are some of the main advantages and disadvantages of going solar? A few of the biggest pros are that it lowers your power bills, it's good for the environment, and it can give you a significant return on your investment (ROI).

How much does solar cost in Shreveport?

The average price of solar is about \$1.9 to \$2.86 per watt in Shreveport, so anything in that range is a fair price. Some prices may be too good to be true. If your installer quotes you way below the average price in your area, proceed with caution. Installers must charge fair prices to remain in business and provide you with 25 years of support.

How do solar incentives work in Shreveport?

Solar incentives and rebates can cut the cost of installing solar in Shreveport by thousands of dollars. The most significant incentive is the 30% federal solar tax credit, available to any taxpayer in the country when they purchase solar panels or battery storage.

Are solar panels a good investment?

A few of the biggest pros are that it lowers your power bills, it's good for the environment, and it can give you a significant return on your investment (ROI). The most notable cons are that solar panels don't produce electricity at night, they cost a lot upfront and solar panels can be an eyesore.
