How much do solar panels cost in Riverside CA?

Based on the latest data from the EnergySage Marketplace, the average Riverside, CA homeowner needs a 9.7 kW solar panel system to cover their electric bills. That'll set you back about \$22,609 before incentives. Need a bigger (or smaller) system to offset your electricity use? The average price per watt of solar power in Riverside, CA is \$2.33/W.

Do I need a solar battery in Riverside?

No, you don't need to install a solar battery in Riverside. Solar panels can operate and lower your electricity bill even without a battery. However, a solar battery might be a worthwhile investment in some cases. A battery can provide backup power and priceless peace of mind in places with prolonged grid blackouts or extreme weather events.

Should you get a solar loan in Riverside?

Solar loans are popular among homeowners because you don't have to have the money for the installation upfront, but you get better lifetime savings than with a leased system. You also get to directly use the incentives (tax credits, rebates, etc.) available in Riverside, rather than a leasing company retaining them.
