Can Community Solar Save you Money?

The U.S. Department of Energy is leading an initiative to bring community solar to 5 million households by 2025, creating a whopping \$1 billion in energy bill savings along the way. Thanks to our amazing solar community, we're helping to make that dream a reality. Will you join us?

Why should you choose a local solar company?

Research over many thousands of installations shows that there are several good reasons to go local. SolarReviews data, from tens of thousands of reviews of solar companies, shows that local, family-owned solar companies record far higher levels of client satisfaction.

Should you rent or lease a home with community solar?

It doesn't matter if you rent, lease, or own your home. Thanks to community solar, anyone with an electricity bill from a major utility across our service territory can save money while supporting locally generated renewable energy through our state-supported community solar program. Better for your wallet, your planet, and your community.

How do I find a reputable solar contractor?

To find a reputable company in your area, you can ask friends and neighbors for referrals, check local government websites for recommended installers, or look at reviews from both solar experts and real customers on a site like SolarReviews. What training and accreditations should I look for when hiring a solar contractor?
