Cyberview Malaysia acting managing director Hafiz Ibrahim, in a statement, said the collaboration will explore the development of a floating solar power plant in Cyberjaya that can benefit from both parties' combined expertises.

Will RM100 million floating solar farm be built on Lake Cyberjaya?

Worldwide Holdings Cyberiew and Kumpulan Perangsang Selangor, Global Energy Storage is working on a project to build an RM100 million floating solar farm on Lake Cyberjaya.

Will floating solar farms benefit Cyberjaya?

Led by Selagor state-owned companies, the existence of floating solar farms will enhance the aesthetic value and capabilities of the smart city, said Menteri Besar Dato' Seri Amirudin Shari. He said a unique and smart approach to solar energy development by Worldwide Holdings Berhad also enhances Cyberjaya's brand and reputation.

How will Tasik Cyberjaya be transformed?

The development of the free power plant project that will generate energy from the floating solar farm at Tasik Cyberjaya is under the Corporate Green Energy Programme at a cost of about RM100 million to start this year. The lake will be transformed whether for better or worse will only be known once the design is shared.

Does Cyberjaya & Putrajaya require approval?

This entirely depends on your location. Cyberjaya and Putrajaya, yes. But other councils may not require approval. On another note, we do subscribe all of our solar installations under the NEM scheme that is governed and approved by SEDA. This is to ensure that we get the best out of the solar PV system installed.

Does Malaysia offer a rent-to-own Solar System?

This rent-to-own model, proven successful worldwide, is now available in Malaysia through GetSolar. Those who are interested can generate an instant digital quote through their online solar assessment tool to learn more about how much they can save, and how much it costs them monthly to own a solar panel system.
