Contact us today for solar services in Redding, CA! You can call us at 530-364-2457 or click to email us for more information. We offer individualized residential and commercial solar systems.

What is the cost of solar in Redding, CA?

The average price per watt of solar power in Redding, CA is \$2.61/W. The final cost for a 11.63 kW system after the federal solar tax credit is \$21,235. Many states offer additional local rebates and incentives that can lower the price further.

Should you switch to solar energy in Redding?

The U.S. Energy Information Administration (EIA) reports that changing to solar energy allows Redding homeowners to save an average of \$1,000 every year. The services from different solar technicians vary. Take the time to compare companies and get quotes before you set up your solar panel installation.

Did Redding Solar Solutions do a good job?

Redding Solar Solutions did an outstanding job. They were amazing to work with, professional and prompt. They went out of their way to make it an easy process. The solar system installation was completed quickly and was ready to use.

Does Redding have a solar system installed?

Redding receives a very high amount of average daily sunlight, which makes it an ideal location for solar energy systems. The cost of a solar system depends on its size and type: the availability of sunlight in Redding is a significant factor in its energy savings. Some models are more expensive than others, so the one you decide on can raise or lower your upfront cost. Plus, the more solar panels you need to get, the more it'll cost.
