

Solar electric power association

What is the Solar Energy Industries Association?

Its purpose is to bridge the gap between supply and demand in the solar power job market. Founded in 1974, the Solar Energy Industries Association (or SEIA in short) is the national solar trade association in the United States. Their mission is to build a robust solar industry in America through advocacy.

What is the Smart Electric Power Alliance (SEPA)?

The Smart Electric Power Alliance (SEPA) is a nonprofit organization that envisions a carbon-free energy system that is safe, affordable, reliable, resilient and equitable. SEPA has a very specific role in the journey towards a carbon-free energy system.

What is the Arizona solar energy Association?

The Arizona Solar Energy Association (ASEA), was founded in the mid-70's as a state chapter of the American Solar Energy Society (ASES), the largest solar energy organization in the United States. ASEA's mission is to educate the people of Arizona about solar energy, its applications, and the benefits of utilizing solar technologies.

What does the Solar Energy Association do?

The Association is particularly focused on supporting activities in the areas of information, education and public relations, as well as to support scientific research in the areas of political, technical and economic potential for the deployment of solar energy.

What does Florida Solar Energy Industries Association do?

The Florida Solar Energy Industries Association supports the widespread adoption of solar thermal and photovoltaic systems by educating consumers and political leaders and drafting and supporting legislation. They conduct business in a professional and ethical manner.

How does SEPA help community solar programs?

By producing a range of more standardized, streamlined and cost-effective business models that can be easily localized across the country, SEPA will spark the growth of community solar programs. For more information on this award and the Solar Market Pathways program, visit their website .
