

Solar paneled water fountain

The Sunnydaze Decor Solar Pump Kit is designed for fountains, ponds, or other outdoor use. The 4.25" solar panel must be placed in direct sunlight in order for the solar pump to function. Once placed in the sunlight the pump can create a beautiful water effect with one of the 5 included spray heads. When there is no sunlight the water pump will not operate.

Solar-powered water fountains are popular for their ease of use and convenience, among other benefits. They are plug & play, ready to be your garden's highlight. They either include a solar pump and panel or are solar-compatible.

While solar fountains offer numerous benefits, a few considerations can maximize their efficiency and functionality. First, the solar panel requires direct sunlight to generate sufficient electricity. Placing the solar panel in an unobstructed area, free from shading by trees or buildings, ensures optimal sunlight exposure.
