

Solar panels new hampshire

How much do solar panels cost in New Hampshire?

Solar panels will save you a lot of money over time, but the upfront costs aren't cheap. The average New Hampshire homeowner needs a 9.86 kW solar panel system to cover their electricity needs, which comes out to \$32,245 before incentives. Prices range from \$27,408 to \$37,082, but after the federal tax credit, that drops by 30%.

How many solar installers are there in New Hampshire?

According to the Solar Energy Industries Association, there are 24 solar installers in New Hampshire, among the 65 solar companies operating in the state. With so many options, it's important you take the time to choose the right solar panel company for your home.

How do I choose a solar panel installation company in New Hampshire?

Homeowners seeking solar panel installation in New Hampshire have a variety of companies to sort through. Before going with any solar panel installation company, it's important to carefully look at local and national reviews, request references, licenses and certifications and get a good idea of financing and warranty options.

Are solar panels a good investment in New Hampshire?

Installing solar panels is an investment that can easily pay for itself in time. Still, it can help to lessen the financial impact by taking advantage of federal, state and local incentives. As in most states, the best way to save money with solar panels in New Hampshire is through the federal tax credit.

Is New Hampshire a good state for solar?

New Hampshire isn't the sunniest state in the U.S. But the high electricity prices make it a great state for going solar. While there aren't many state-level incentives, the federal solar tax credit and the state's net metering program can still save you thousands on your solar panel system. What are the best solar incentives in New Hampshire?

How much does a 5 kW solar system cost in New Hampshire?

The average cost for a 5 kW solar panel system is around \$16,679 in New Hampshire. Once you factor in the 30% credit, the cost comes down to \$11,675. When you file your federal income taxes, you can claim this incentive as a credit towards your federal tax bill.

In New Hampshire, you can sell your excess solar energy back to the power company if your utility is Eversource, Liberty Utilities, New Hampshire Electric Cooperative, or Unitil. This can save you thousands of dollars over the course of your solar system's lifespan.
