

Solar portable power generator

What is a solar generator?

Solar generators are smaller-scale versions of whole-house solar panels and batteries. Portable power stations have been available for a while now and using home solar panels to charge on the go is the next logical step. Combine portable power stations with portable solar panels and you have yourself a solar generator.

Are solar generators portable?

Solar generators are available as both portable generators and backup home generators. Most solar generators are portable, lightweight, and have a built-in handle. The best portable solar generators are used to provide power for construction sites, campers, events, or other settings where access to electricity is limited.

What is the best portable solar generator?

Its Delta 2 Portable Power Station paired with the 220-watt (W) Bifacial Portable Solar Panel is our favorite portable solar generator setup. It's not small and light, with the power station itself weighing in at 27 pounds, but it's not unmanageable for most.

Which solar powered generator is right for You?

If you need something portable for a camping trip, then the Jackery 500W might be your best new travel buddy. When deciding what solar powered generator is right for you, consider which types of appliances, tools, and devices you need to charge and how often you'll be without a traditional power source.

Which solar generator should I buy?

With its durable enclosure and ergonomic design, the GB2000 is our top pick for a solar generator you can take anywhere. The 2,106 watt-capacity lithium-ion battery packs plenty of power into relatively compact housing, and the so-called "parallel ports" make it possible to combine two power stations, doubling the total power output.

What can a solar powered generator charge?

These generators can charge power tools in the shop, laptops for remote work, and personal devices like bluetooth headphones and speakers. A solar-powered generator with a higher power capacity can even power household appliances in the event of a power outage.
