Can solar lights be used under a porch?

Some solar lights have small panels on each individual light, while others have a single external panel that powers the entire set. You might prefer the latter if you want to use the lights under a porch or covered patio; you'll be able to give the solar panel direct sunlight while keeping the lights where you want them.

Are solar-powered outdoor lights a good idea?

Using solar-powered outdoor lights can set that glowing backyard ambiance in a more sustainable way, and eliminates the need for long, ugly cords or constant battery replacement. They're powered by solar cells that convert sunlight into electricity, which is then stored in an internal battery.

How do I choose the best outdoor solar lights?

Some are staked into the ground while some are mounted or hung on the side of your home. Determine what you need to be illuminated and where you have space to install outdoor lights to find the best outdoor solar lights for your space.
