Solar scada

The SolarSCADA platform is designed specifically for solar monitoring applications. We provide a complete, all-inclusive standalone monitoring system that can meet any specification that currently exists for photovoltaic monitoring systems.

Skyfri SolarSCADA is the industry"s first fully integrated SCADA system specifically designed for solar PV asset monitoring. The hardware is developed in-house to simplify sensor installation, calibration and maintenance for common instrumentation used in solar PV monitoring.

SolarSCADA has partnered with Radix IoT, harnessing the strengths of their JAVA(TM) based Mango© Automation Platform for large scale solar monitoring. Mango is a powerful end-to-end solution for you to rapidly build and deploy easy-to-use, scalable SCADA, HMI, BAS or ...
