

Are solar panels connected to the New Zealand grid?

Solar systems can either be connected to or independent of the New Zealand grid. Generally, maintaining a grid connection will cost less than enabling your system to provide you with constant power - unless you live somewhere without existing lines. Grid-tied solar - Most homes with solar panels stay connected to the electricity grid.

Should I buy a solar system in NZ?

Purchasing a solar system in NZ is a wise choice that will pay off in the long run. Get in touch with us to discover how much you'll save. Is solar power worth it? By harnessing the energy of the sun, you can save on your utility bills. Over time, the savings offset the initial setup costs, making solar power a worthwhile investment.

How do solar panels work in New Zealand?

They work by harnessing light energy (photons) to produce an electric current. Solar PV panels can be installed on the roof of your home, garage, or even in your yard - wherever they will capture the most sunlight. Solar systems can either be connected to or independent of the New Zealand grid.

Are solar panels a good option for New Zealand homes?

Off-grid solar - Some houses in New Zealand are completely independent of the electricity grid and rely on very large systems, batteries, or fossil fuelled back-ups to store and power their homes outside of daylight hours. Better with batteries? Like solar panels, home batteries are becoming more affordable and accessible for New Zealand homes.

Why should you choose a solar installation in NZ?

Choosing a solar installation in NZ reduces your reliance on traditional power sources and helps you save money on your electricity bill. You're also taking control of your energy future, as appliances and lights remain operational even during a power cut.

Is solar a good investment in NZ?

Over time, the savings offset the initial setup costs, making solar power a worthwhile investment. Our solar solutions enhance your energy independence and help reduce your carbon footprint, contributing to a sustainable and greener future. How much does it cost to install solar in NZ?
