

How long does a Solarwatt myreserve battery last?

It also has an IP31 rating, so you can't install this outside. SolarWatt says the lifetime of the MyReserve system is around 15 years, and guarantees an output of at least 80% of the battery module's capacity for 10 years. The product warranty is five years.

How much power does myreserve have?

The MyReserve system can be expanded in 2.4kWh increments and SolarWatt says it is compatible with all common types of inverter compatible with MyReserve Command technical design parameters, without stating what those inverters are. Depending on the number of battery modules, MyReserve offers peak power of up to 4 kW (800W peak per MyReserve unit).

Does myreserve work with all types of inverters?

You can build the right system for every need. MyReserve can adapt to any system. Expansion is possible in 2.4 kWh increments thanks to the modular design and the battery storage system is compatible with all common inverter types. The fully modular design makes it easy to service and perform maintenance.

Are Solarwatt solar panels eligible for the STC solar rebate?

Solarwatt Solar currently has 18 solar panels approved by the Clean Energy Council in Australia under the name "SOLARWATT GmbH". This is a requirement to be eligible for the federal STC solar rebate.

Does Solarwatt have a warranty?

Solarwatt's product warranty is 30 years and is one of the longest product warranty currently on offer in Australia. The performance warranty guarantees a certain level of output for the lifetime of the panel - typically guaranteeing 80-82% of the nameplate output after 25 years.

Is Solarwatt a bankable company?

Solarwatt are not as big as some of the other Solar Panel manufacturers and have not made it onto Bloomberg's tier 1 list for bankability. As a boutique high-end solar panel manufacturer, they look to be stable as they are majority owned by Stefan Quandt who is said to be worth \$18 billion as one of Germany's richest persons.
