

Solid power louisville

Is solid power a good battery company?

No other known company has made the type of commercialization achievements in all-solid-state batteries that Solid Power has, and Solid Power's technology is built around a manufacturing process that would be indistinguishable to lithium-ion batteries, putting this Company in a league of its own.

Who makes solid power battery cells?

In October 2021, Solid Power announced a partnership with SK Innovation to produce Solid Power's automotive-scale all-solid-state battery cells utilizing Solid Power's sulfide-based solid electrolyte, proprietary cell designs and production processes.

What is solid power's sulfide-based solid electrolyte project?

With this project, Solid Power intends to install the first globally known continuous manufacturing process of sulfide-based solid electrolyte materials for advanced all-solid-state batteries (ASSBs) and expand its electrolyte production capabilities at its Thornton, CO facility.

Does solid power need a better battery?

At Solid Power, we envision a future of clean, sustainable, battery-powered mobility. In order to transition the mass market to this renewable-powered revolution, we believe a better battery is required.

Who is the legal advisor for solid power & DCRC?

Wilson Sonsini Goodrich & Rosati, P.C. is acting as the legal advisor to Solid Power, Vinson & Elkins L.L.P. is acting as the legal advisor to DCRC, Cleary Gottlieb Steen & Hamilton LLP acted as the legal advisor to the M&A advisors and Mayer Brown LLP is acting as legal advisor to the placement agents on the PIPE transaction.
