

Soly solar panels

What is Soly - solar energy for all?

About Soly - Solar energy for all. It's possible. - Soly UK In 2013, brothers Patrick and Milan van der Meulen founded Soly with one mission: to make solar energy accessible to all. Here at Soly, we're passionate about working towards a world with affordable, carbon-neutral and decentralised energy.

Who is Soly solar?

Soly is an international Clean Energy Tech company on a mission to make solar energy available to everyone. The company was founded in the summer of 2013 by brothers Milan and Patrick van der Meulen.

Is Soly a good solar company?

Soly has been named as one of the fastest growing companies in the Netherlands by the 'Financieel Dagblad'. Going solar should be just as easy as switching from a utility provider. With that goal in mind we have built the Soly Platform from scratch.

Does Soly revolve around the Sun?

As much as the earth revolves around the sun, as well does everything at Soly revolve around the sun. We are on a mission to make solar energy accessible to all. Which seemed like a mission impossible years ago, is getting closer today. And we enjoy every part of it. Because the sun is in fact one of the few natural sources of energy.

Why should you choose Soly commercial solar lease?

The sun, the ultimate source of energy. South Africa suffers high electricity prices and load shedding. Soly's Commercial Solar Lease solution unleashes the power of the sun, reducing your company's dependence on the electricity grid. We're also here to help you power your life with Solar Panels for private properties.

Is Soly a capital-efficient energy provider?

By developing its proprietary software platform, Soly is one of the most capital-efficient energy providers with only 140 employees across six countries. The Soly platform won a spot in the Deloitte Technology Fast50 in 2021. Soly is an impact driven company and since 2018 B Corp certified.

When installing a home solar storage battery, the Solar Battery becomes part of the existing system of solar panels, microinverter, and grid. With smart batteries for solar panels from Soly, you can increase your independence from the energy grid from 40-60%, to 60-80%. Start calculating here or contact us for more information
