

How do I explore the SkyMap?

To explore the skymap, scroll, double click, or pinch/swipe to zoom in and out. Roll over an icon to see the object, click to zero in, and click again for a detailed view and a description. Drag the map to navigate. A text version is available for screen readers. For the best experience on mobile, please rotate your phone to landscape mode.

Where do the images from deep space maps come from?

Most of the image comes from the Hubble space telescope- a space telescope that was launched into orbit 38 years ago. It delivers us new images every day and discovers new stars in the space. This project use technologies by Google Maps JavaScript API and HTML5. Deep Space MapFacebook pageContact usGet link and Share HomePrivacy policy
