

Sunfarm solar energy

You've heard of Science Friday... now get ready to enjoy Solar Friday! We're taking a page out of the book of our friends over at NPR's Science Friday with some educational graphics to help you take a deep dive on some solar basics. In 2021 we created Solar Friday as a social media feature to address frequently asked questions about solar.

Looking Back on Our Favorite Features In 2023 we published 25 editions of Solar News of the Week to keep you up to date on the latest solar, renewable energy, and utility news. It was a record-breaking year for solar and an exciting time for stories from the renewable energy industry. From space-based solar, to...

When we started inquiring about a solar program, I spoke with an agent at Sunfarm who promised me the world. He said we would have a battery and that our panels would be able to work during an outage.

SunFarm Energy is proud to provide Solar Evaluation Reports for existing systems. Whether your array was installed by SunFarm Energy or another business, we're here to help ensure your system works properly. What is a Solar Evaluation Report?

SunFarm Energy offers financing solutions tailored for the average residential and commercial client, including zero down and low interest rate options. These non-equities-based solar loans are intended for customers seeking financing for renewable energy projects, including solar, where credits, rebates and/or incentives are available. ...

The solar investment tax credit (ITC), also known as the federal solar tax credit or solar ITC, allows folks with solar to deduct 30% of the cost of installing a solar PV system from their federal taxes. In 2005, Congress passed the Energy Policy ...

Why Install Solar With Tesla Solar Roof? Installing a solar power system in any capacity reduces your monthly electric bill, adds value to your home, and helps to keep our environment healthy. But with Tesla Solar Roof you can take advantage of all the benefits of renewable energy without sacrificing on aesthetics and curb appeal.

At SunFarm Energy, we pride ourselves on helping our customers find the best solar solution to fit their lifestyle. We consistently recommend energy efficiency upgrades, and thanks to the folks at the Florida Solar Energy Center (FSEC) we've got some great tips if you're looking to make your home more efficient for the new year.
