SunRay Engineering is an alternative energy company that engineers and manufactures solar products and systems for residential and commercial uses, like our solar pool pumps, that are cost effective, durable, and

Sunray solar energy

will save you money on your energy bills.

A pool pump is often one of the largest electrical loads in a home. A solar pump is practical because the need for filtration is greatest during sunny weather. It is perfect for pumping through solar heat collectors because the circulation requirement corresponds with solar intensity. SunRay pumps are built with efficiency in mind.
