

AC inverter output is 3000w continuous with a very good 6000w peak output. With our current two battery setup it has almost the exact same output capacity as our 3500w Predator gas generator so there really isn't anything we ...

Titan Boost Power Module. (21 customer reviews) \$ 1,895.00. A rugged and reliable solution to supercharge or portable power needs. Packed with a robust 3000w pure sine wave inverter and user-friendly modular expandability, the Titan Boost can be used for emergency backup or take it on the road to power any adventure.

Titan 240SP Power Module. With a powerful 4000w 240v inverter, the Titan 240SP offers the most reliable and long-lasting power for home backup or off grid living. 2.5Wh-27,500Wh expandable battery capacity. 4400 watts expandable solar capacity. Split ...

It was the go-to solution for portable, reliable energy backup, offering a massive 3000-watt pure sine wave inverter and a modular battery system. With its plethora of output ports and an MPPT charge controller, it became the epitome of versatility.

The Titan Solar Generator is a large solar generator that can be charged in around 4 hours via solar power, AC outlet, DC outlet, or a 24V battery expansion. This gives it many different options for charging, and you can also charge it via multiple different inputs simultaneously, speeding up the charging process.

By investing just a little more than \$1000 extra in a Titan, you get two MPPT controllers, the ability to attach your solar panels in a more efficient series (up to 1000 watts with a single battery) array, 2000 watts of Lithium battery, a 3000 watt Inverter that will run

Titan's pure sine wave inverter allows for up to 3000W of continuous output, or up to 6000 watt surge. That means that there is no limit to what you can power, with 6 AC outlets, 6 Smart USB ports, 2 USB-C ports, DC ports, and even a dryer outlet!

The original Titan Power Station and the Titan Boost both have a 3000W Inverter, but the Titan Boost Solar Generator provides a 5 Second 6000W Initial Draw (super impressive!) All of the Titan Units have modular batteries, which make transportation a breeze as well as allowing you to add as much capacity as you need.
