

What is a WECO XP battery?

On sale! On sale! The new 5.3kWh,48V WeCo XP lithium battery with modular system is one of the most versatile storage systems for application in isolated or self-consuming photovoltaic installations. The WeCo XP WiFi battery is compatible with the most commonly used inverter brands; Goodwe,The Voltronic Axpert,You know,Studer,Sma,Blue...

How does the WECO Wi-Fi monitoring system work?

The WeCo Wi-Fi monitoring system is able to detect,control and monitor every battery pack connected. Just connect your existing Photovoltaic System or install a new one with a Hybrid inverter to be immediately energy independent. Duis aute irure dolor in reprehenderit in voluptate velit esse cillum dolore magna aliqua.

Do I need a new BMS If I already own a WECO battery?

In case you already own a WeCo battery and want to expand to work at high voltage,you will need the new BMS and the stand (optional). WeCo 5K3 XP WiFi offers us one of the most advanced lithium batteries on the market. 5.3kWh module in 48V for storage in photovoltaic installations.

Which inverter is compatible with the WECO XP WiFi battery?

The WeCo XP WiFi battery is compatible with the most commonly used inverter brands; Goodwe,The Voltronic Axpert,You know,Studer,Sma,Blue... Capacity of the module: 5.3 kWh Size: 460x520x155 weight: 53 kg Modular system Max. 15 units in parallel and 105 units with the WeCo Expansion Hub. Low voltage /high voltage applications

How do I contact WECO batteries?

Contact us at sales@wecobatteries.com our Team will be happy to assist you! #EnergyStorage #Sustainability #CleanEnergy

Why should you choose WECO battery chemistry cell?

Each application has its own Lithium Chemistry cell in order to guarantee the highest durability and Safety. WeCo has developed one of the most advanced BMS with active and passive equalizer with a real-time control on every single cell. The WeCo Wi-Fi monitoring system is able to detect,control and monitor every battery pack connected

Some other news from OGS, below a system we have integrated with a customer, for a poultry farm, 57 kWp of PV, 88 kWh of WeCo ESS 4k4LT, 90 kVA-6 Multiplus 2 - 15 kVA Victron Energy, with 2 Solar chargers 450/200 Victron, and 1 Fronius International Symo 20kVA. it's coupled with a 100 kVA genset. We have done the DC bus bar on our workshop to increase the capacity ...

The 5ESS came to market as the Western Electric No. 5 ESS. It commenced service in Seneca, Illinois on March 25, 1982, and was destined to replace the Number One Electronic Switching System (1ESS and 1AESS) and other electromechanical systems in the 1980s and 1990s. The 5ESS was also used as a Class-4 telephone switch or as a hybrid Class 4/Class 5 switch in ...

We just wrapped up the Nigeria Energy Solar Show in Lagos, an exhilarating three-day event in one of the world's most populous cities. By showcasing the WeCo ESS 5k3 XP dual voltage battery, we shared with installers and the public that quality matters when a household or an institution invests scarce resources into a backup power solution. Like any investment, it is key ...
